ELECTORAL DISTRICTS OF RUMANIA

[Comment: The new Rumanian constitution, adopted in the fall of 1952, called for a new system of electoral districts in Rumania. The chief purpose of these districts, numbering approximately 395, was to furnish a basis for electing deputees to the Grand National Assembly according to the population of each raion. The following information gives two lists of districts: the first shows the electoral districts in the city of Bucharest, and the second shows the electoral districts in each one of the 18 regiunes of Rumania. In the latter list, each electoral district is followed by the name of the respective raion in which it is located.

The original source, Scanteia of 12 October 1952, further breaks down the electoral districts into the communes and villages which comprise each district.]
